HARSH KANDERA

Full Stack Developer – MERN Stack

harshkandera@example.com — +91-776655443378 — India

Professional Summary

Full Stack Developer with 2 years of experience building scalable web applications using the MERN stack. Hands-on experience with MongoDB, Express.js, React.js, Node.js, JavaScript, TypeScript, REST APIs, Git, Docker, and cloud deployment.

Technical Skills

Frontend: React.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware, API Integration
Database: MongoDB, Mongoose, MySQL, PostgreSQL
Programming: JavaScript, TypeScript, Python, SQL
DevOps & Cloud: Docker, GitHub Actions, AWS EC2, AWS S3, CI/CD
Version Control: Git, GitHub
Testing & Tools: Postman, VS Code, npm, Chrome DevTools
Concepts: Full Stack Development, RESTful APIs, Authentication, Authorization, CRUD, Responsive Design, State Management, API Security, Database Design, Performance Optimization

Professional Experience

Full Stack Developer – MERN Stack **2 Years**

Company Name, India

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built responsive and reusable frontend components using React.js, JavaScript, TypeScript, HTML, CSS, and Tailwind CSS.
- Designed and developed RESTful APIs using Node.js and Express.js for authentication, CRUD operations, and application workflows.
- Integrated MongoDB using Mongoose and designed database schemas, queries, relationships, and data validation.
- Implemented JWT-based authentication, role-based authorization, middleware, input validation, and API security.
- Integrated third-party APIs and connected frontend applications with backend services using REST APIs.
- Containerized applications using Docker and supported deployment across development and cloud environments.
- Identified and resolved frontend, backend, API, database, and deployment issues while improving application performance.

Projects

MERN E-Commerce Application

- Developed a full-stack e-commerce application using React.js, Node.js, Express.js, and MongoDB.
- Implemented user authentication, product management, shopping cart, order processing, REST APIs, and admin functionality.

Task Management Application

- Built a task management platform using React.js, Express.js, Node.js, and MongoDB with JWT authentication and role-based access.
- Implemented CRUD operations, task filtering, status management, API validation, and responsive dashboard interfaces.

Real-Time Collaboration Platform

- Developed a collaborative web application with React.js and Node.js supporting real-time communication and user interactions.
- Integrated REST APIs, MongoDB, authentication, and responsive frontend components for a scalable application architecture.

Education

Bachelor of Technology in Computer Science and Engineering
University Name, India CGPA: 8.2/10

Higher Secondary Education
School Name, India Percentage: 92.5%

Certifications

MongoDB Associate Developer Certification — AWS Certified Cloud Practitioner

Additional Information

Location: India — **Career Interest:** Full Stack Development, MERN Stack, React.js, Node.js, Express.js, MongoDB, REST APIs, Cloud Deployment
